

# Something New

Our proofing method and the portrait session fees have been changed to more efficiently view and order your pictures. We will still offer the same creative and fun style of photography to capture your moods and personality, your hobbies and sports. Bring your friends, your dog or cat and we'll come to your location for your horse. I will work with you to take these images as you wish, wherever you wish.

We have some great locations in and around our studio and throughout the Lebanon County. We do not count the number of clothing changes or location changes. You may come back several different times of the year for a different look in a different season.

We offer beach sessions, mountain trails, farm locations, even at your school in the gymnasium or pool. Some destinations might charge a fee for the use of their property. That fee will be paid by Tim McGowan Studio in advance but billed on to the customer. Some travel fees could apply depending on distance and location. Transportation and Lodging are your responsibility.
